

EXPLANATION

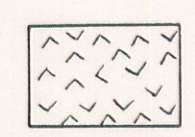

Massive quartz (Coré)

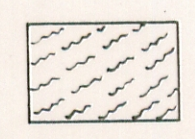

Blocky perthite (Intermediate Zone)

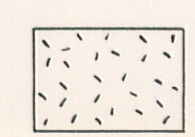

Coarse-grained perthite-quartz pegmatite (Wall Zone)

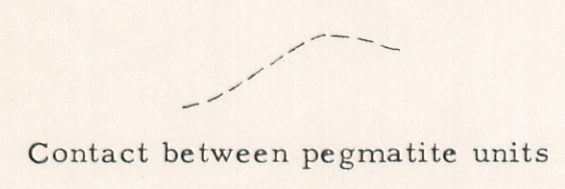

Graphic intergrowth of perthite and quartz (Border Zone)

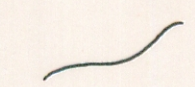

Biotite-rich inclusion

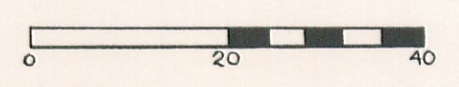

Quartz-biotite schist

Contact between pegmatite units

Contact

Scale: 1 inch = 20 feet

GEOLOGY OF HOUSER CANYON PEGMATITE

GEOLOGY AND TOPOGRAPHY BY R. S. FOOTE, 1951

Contour interval 5 feet

Arbitrary datum 100 feet at D
