

Sedimentary and Volcanic Rocks

Qal - alluvium
 Qtg - terrace gravels
 Tp - Pacoima formation
 Tm - Modelo formation
 Tnc - Mill Canyon formation
 Tsb - San Gabriel formation
 Tsv - Vasquez Formation volcanic rocks
 (See plate 1 for description of units)

Geologic Cross Sections of the San Gabriel Anticline-Stemite Body, California
 Plate 118, Bruce Carter, 1980
 California Institute of Technology

Plutonic and Metamorphic Rocks

Jgd - Mt. Josephine granodiorite
 Jgd - Mt. Josephine granodiorite
 Jgm - Parker Mountain diorite
 Jhb - Hornblende-syenite gabbro
 Jpb - Jovianite gabbro
 Jba - Jovianite gabbro with anorthositic inclusions
 Jsa - Jovianite gabbro with anorthositic inclusions
 Jsy - syenite
 Jsy + fm - syenite and ferromagnesian-rich rocks
 gbs - sodic gabbro
 gba - gabbro with anorthositic inclusions
 gbl - layered gabbro with anorthositic inclusions
 an - anorthositic
 an + gd - anorthositic with numerous granodioritic dikes
 mgd - Mill Canyon anorthositic to gabbroic gneiss
 Mgn - Mill Canyon amphibolitic gneiss
