Notes:

- * dates and times are given in local time: UTC +7
- (1) USL-1 is near the center of this photo
- (2) the blue boat at the edge of the reef was washed ashore into the vegetation by the 2004 tsunami and carried back by villagers to its location in the photo
- (3) the site occupies the left third of the photo and extends farther to the left off the photo
- (4) the dock labeled on the site map was not yet built at the time of this photo
- (5) the large microatoll in the pool is the 4-m diameter head labeled on the site map
- (6) LKP-C is just off the right edge of the photo
- (7) LKP-C is directly below the photographer, out of view on this photo
